

PHILANTHROPY FOR

THE CHEB

THE HOSPITAL OF BRIANÇON'S RENOVATION OF THE EMERGENCY DEPARTMENT

THE PROJECT

An architectural restructuring and functional reorganization of the emergency department. A 2-year project amounting to 1.4 million euros.

The Emergency Department welcomes more and more patients every year. The premises of the ER of the Hospital of Briançon are no longer compatible with the inflow of patients: The current architecture, built in 1996, was designed to welcome approximately 11,000 annual passages. However, the number of passages recorded in 2018 is of 21 409, **an increase of 95% of the activity in 22 years.**

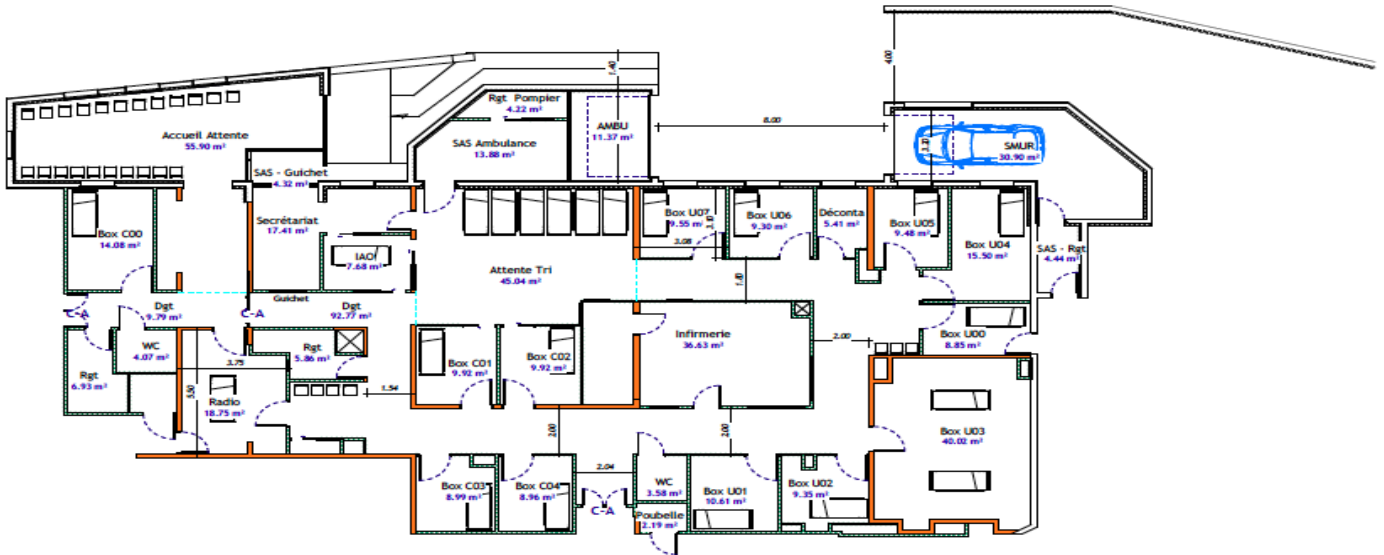

The highlights of this new project is predominantly focused on **the reception area, the treatment room and the observational units**, in order to **improve the organization** of the department, to **ensure the safety of patients and staff** as well as the **respect for the confidentiality of patients.**

This architectural resizing project allows to increase the number of observational units and to optimize the organization of the facility. **It takes into account the latest operating recommendations of the emergency departments in France**, including the creation of different circuits adapted to different typologies of patients (short circuit, long circuit, intensive care). The new project also takes into

consideration the seasonal flows, with peaks of activity approaching 140 patients a day during winter and summer.

The emergency department receives 21,500 passages every year, the medical staff carries out 530 missions of Mobile Emergency and Resuscitation Service (SMUR), including 310 helicopter and extreme mountain rescue missions.

ARCHITECTURAL PLANS

THE MEDICAL AND NURSING STAFF EXPRESSES ITSELF :

"Because it is an isolated Mountain Hospital, and given the delivered services, the Region, the City of Briançon and all the businesses and partners that profit from tourism must keep in mind that this project is everyone's project. It must be a priority in order to guarantee quick and quality care for its population and its tourists. It is in this context that we are setting up a search for sponsors in order to collect the maximum funds for this project to succeed "

> Thomas SPADONI, Emergency Department Physician, project leader

"The superb Hospital of Briançon must have an Emergency Reception Service that meets the expectations of the patients and the level of the rest of the hospital's facilities. With the doubling of the number of passages to the ER since its creation, with its activities of SMUR and Mountain Rescue, this service is often the only lighthouse in the Briançonnaise nights and all the north of the department of Hautes Alpes. It ensures the safety of all, in this isolated territory with immense tourist attractiveness, either summer or winter. We

have woven many networks over time so that our patients can benefit from advanced treatments and have access to the most modern technical platforms, despite our isolation. But today and tomorrow even more, our premises do not allow us any more optimal organization of care and we urgently need a structure in line with our activities. "

> Yann FILLET, Chief Emergency Department Physician

Small by size but big because of the services it renders !

"The emergency medical and nursing staff hopes to resize its premises in order to improve patient care and working conditions - we are counting on you!"

> Anne RENAULT ALLAIN & Alexandra WELYKYJ, Head nurses of the Emergency department

What the patients have to say

17.03.2018 "I Arrived at the emergency room on 09 03 18 at 16h30..very well received by all of the team wrist fracture surgery on the 10th. All the staff are nice and at the top and in addition to all that, I could see the Prorel Mountain Cable Car from my room congratulations to all and thank you "

25.08.2017 "The hospital of the Escartons de Briançon brings together a whole bunch of EXCELLENT PROFESSIONALS, not only from the medical point of view but also

(very important!) the human aspect. During the holidays, my 10-year-old son had an accident and broke his arm. At all times, he received warm and comforting attention from everyone: nurses, doctors, auxiliaries ... A real pleasure!

May all the hospitals and medical centers in France take the example of the hospital of Briançon, where the teams are thorough in their work and equally attentive to the patients are which is important. A BIG THANK-YOU."

28.02.2018 "I arrived at the emergency room at 6 pm. I was very well received, the staff is kind and delivered real care. They are Competent and reassuring. At 8 pm I received the final diagnosis. I was taken in for the night. Very well monitored. Kudos to this team! I live in Paris and the emergency departments there are a horror. Thank you to the briançon emergency department ! "

6.02.2019 "Well taken care of, great team, kindness, high performance, thank you for everything, you are doing a job that is not easy but you do it with the heart ..."

21.01.2019 "Small passage in the emergency room, the whole team who took care of me is at the top, thank you again."

LAUNCHING A SPONSORSHIP ACTION IN FAVOR OF THE HOSPITAL OF BRIANCON

By financially supporting the hospital of Briançon in its project of renovating the emergency department, you directly support the improvement of the quality of care as well as the conditions of reception, which benefits the patients of today and tomorrow.

By making a donation, you send your encouragement and thanks to doctors, nurses, caregivers, hospital service agents, secretaries, executives for their daily commitment. Your donations accelerate significantly our projects.

Two out of three inhabitants of the Grand Brianconnais come at least once a year to this 24-hour service to welcome and treat everyone's distress and suffering. In addition, the emergency department is a pillar of the success of the local economy,

because a good hospital is fundamental in the development of tourism related activities in particular, but it is also reassuring for the installation of new families in the Grand Briançon.

Finally, the Briançon hospital is fully committed towards you so that you can donate in confidence. Financial transparency, good management of donations and respect of the will of donors are among the ongoing objectives of the collection of donations and legacies. Donations will fund directly the emergency renovation project.

TAX ADVANTAGES AND BENEFITS

Tax benefits for individuals :

By supporting the Hospital of Briançon, you benefit from an income tax reduction of 66% of the amount of your donation, up to a limit of 20% of your taxable income. For example :

- > Your donation of 50 euros only really costs you 17 euros after tax deduction.
- > Your donation of 100 euros really only costs you 34 euros after tax deduction.

Tax benefits for companies :

A sponsoring company may benefit from a tax reduction of 60% of the amount of its donation for its corporation tax (Impôts sur les sociétés in France), within the limit of a ceiling of 0.5% of its turnover.

If this threshold is exceeded, the company can defer the excess for the payment of the tax due for the following five fiscal years; the postponement remains valid even if its exercise is deficient.

Businesses subject to income tax (Impôt sur le Revenu in France) benefit from the same tax benefit.

For example :

> Your donation of 5,000 euros only really costs you 2,000 euros after tax deduction.

> Your donation of 15,000 euros only really costs you 6,000 euros after tax deduction.

To make a donation, contact the management of the Briançon hospital (04.92.25.21.01 or direction@ch-briancon.fr), who will accompany you through the donation process. A tax receipt will be sent to you a few weeks after your donation.

Online payment : You can make your donation online : <https://www.ch-briancon.fr> (soon available)

THANK YOU FOR YOUR SUPPORT AND ENCOURAGEMENT !
